

# PRODUCT LINE

**NOW OPEN**

**New state of the art facility in Northeast Iowa**

POLYMER	TRADE NAME	GRADE AVAILABLE
Acetal	Jedalon®	Copolymer: General purpose, lubricated, wear resistant, glass reinforced, bead reinforced, pre-color, weatherable  Homopolymer: High viscosity, general purpose, lubricated, chemically lubricated, advanced wear resistant, toughened, pre-color
ABS		General purpose, flame retardant, glass filled, high impact
Nylon	Jedamid® 6, 66, 66/6, 610, 612, PPA, HTN	Neat, glass-fiber/glass bead-reinforced, glass-filled, mineral-filled, impact-modified, reduced moisture, high heat, flexible nylons, flame-retardant compounds, wear resistant, advanced wear resistant, nucleated
Polycarbonate		All major grades available
Polyethylene		Low-density, linear low-density, high-density, modified polyethylene, polyolefin elastomers, polyolefin plastomers
Polypropylene	Jedaloy®	Homopolymers, impact copolymers, reinforced, flame-retardant, filled (fiberglass, talc, calcium carbonate), random copolymers, chemically coupled, nucleated
Polystyrene		General-purpose, high-impact (HIPS)
Siloxane	Jedaloy®	Siloxane MB's for many TP's (PE, ABS, Acetal, Nylon, PBT, TPU)
Thermoplastic Polyester(PBT)	Jedalox™	Flame-retardant, reinforced, extrusion, injection molding, high flow, nucleated, wear resistant

**PRE-COLORS**

Acetal, ABS, PBT, PE, PP, PC, Nylon  
 Standard color chart upon request.
